- Answer common questions about PrEP DAP coverage and billing
- Access the Client Services EIP & PrEP DAP Provider Portal

What is PrEP DAP?

PrEP DAP = Pre-Exposure Prophylaxis Drug Assistance Program

PrEP DAP is a state-funded program that expands access to PrEP to people in Washington who are prescribed PrEP but cannot afford it. PrEP DAP is commonly referred to as Client Services which encompasses the EIP and PrEP DAP programs.

- Assists with patient costs for medical/lab claims for PrEP related visits by contracting with provider offices, labs, and some pharmacies for approved services.
- Covers the pharmacy related drugs on the PrEP DAP approved formulary, the main one being generic Truvada.

Seeking PrEP Prescribing Medical Offices

Client Services - EIP and PrEP DAP - contract with over 350 health care facilities to provide payment assistance for HIV care and prevention services.

We have recently contracted with a few pharmacies as medical providers, which gives another option for people accessing PrEP.

Why contract with PrEP DAP?

- Makes paying for PrEP easier for patients and providers.
- Recommended PrEP related medical and lab services are covered.
- Easy and quick contract process.
- Bill PrEP DAP instead of patients.

How does PrEP DAP work? For Providers

PrEP DAP contracts with a statewide network of provider offices and pharmacies.

PrEP DAP pays contracted providers for approved services provided to program enrollees.

Contracted providers submit claims to PrEP DAP and are reimbursed for approved services.

PrEP DAP sends remittance advice to the provider office and payments are issued electronically.

Ramsell Corp. manages PrEP DAP pharmacies for medications included on the PrEP DAP formulary.

PrEP DAP/DOH shares clinical and professional resources and information with contracted providers.

How does PrEP DAP work?

For Clients

People in WA who are prescribed PrEP and have out-of-pocket costs for PrEP related services and drugs are eligible to apply.

Applications can be submitted electronically, via mail, or by a PrEP Navigator. Eligibility can be awarded within days.

Enrollees must receive care from a PrEP DAP contracted provider (health care provider office, laboratory, or pharmacy).

Enrollees are issued a client ID and eligibility letter.

Payments are issued to contracted provider offices, no balance is left for PrEP DAP covered services for eligible enrollees
