HIV Outbreak Response Plan – Community Engagement Sessions

The Washington State Department of Health (DOH) is developing a statewide HIV Outbreak Response Plan. DOH and partners aren't currently responding to any outbreaks of HIV in Washington but having a plan in place will help us respond effectively if any outbreaks occur.

Community input is an essential part of this planning process.

DOH hopes to engage individuals living in Washington state who are outside King County, and who are impacted by HIV. PHSKC will organize community listening session for King County.

Ten listening sessions from Sept 21 to Dec 1.

Next One: Monday, Nov 28, 5-7pm

Spanish Session: Tuesday, November 29, 5-7pm
